Index of authors and papers to volume 122

Anselmet, F. see Pinton, J.-F. 122 (1998) 187
Ashwin, P. and Rucklidge, A.M., Cycling chaos: its creation, persistence and loss of stability in a model of nonlinear magnetoconvection 122 (1998) 134

Baltanás, J.P. and Casado, J.M., Bursting behaviour of the FitzHugh–Nagumo neuron model subject to quasi-monochromatic noise 122 (1998) 231
Bambusi, D. and Nekhoroshev, N.N., A property of exponential stability in nonlinear wave equations near the fundamental linear mode 122 (1998) 73
Barat, P. see Dutta, D. 122 (1998) 155

Casado, J.M. see Baltanás, J.P. 122 (1998) 231

Danaila, L. see Pinton, J.-F. 122 (1998) 187
Davis, S.H. see Golovin, A.A. 122 (1998) 202
Doelman, A., Gardner, R.A. and Kaper, T.J., Stability analysis of singular patterns in the 1D Gray–Scott model: a matched asymptotics approach 122 (1998) 1
Dutta, D., Barat, P. and Ganguly, S.N., Acoustic characterization of fractal crack surface 122 (1998) 155

El-Zant, A.A. and Gurzadyan, V.G., Relative chaos in gravitating systems with massive centre 122 (1998) 241

Faure, P. and Korn, H., A new method to estimate the Kolmogorov entropy from recurrence plots: its application to neuronal signals 122 (1998) 265

Ganguly, S.N. see Dutta, D. 122 (1998) 155
Gardner, R.A. see Doelman, A. 122 (1998) 1
Golovin, A.A., Davis, S.H. and Nepomnyashchy, A.A., A convective Cahn–Hilliard model for the formation of facets and corners in crystal growth 122 (1998) 202
Gorshkov, A.S., Lyakhov, G.A., Voliak, K.I. and Yarovoi, L.A., Parametric generation in anomalously dispersive media 122 (1998) 161
Gurzadyan, V.G. see El-Zant, A.A. 122 (1998) 241

Kaper, T.J. see Doelman, A. 122 (1998) 1
Korn, H. see Faure, P. 122 (1998) 265

Lahno, V.I. see Zhdanov, R.Z. 122 (1998) 178
Le Gal, P. see Pinton, J.-F. 122 (1998) 187
Lyakhov, G.A. see Gorshkov, A.S. 122 (1998) 161

Macek, W.M., Testing for an attractor in the solar wind flow 122 (1998) 254
